3. รูปแบบการพัฒนาบึงน้ำขนาดใหญ่แบบมีส่วนร่วมในสังคมไทยจะต้องเริ่มต้นด้วยเรื่องของการรับรู้ข่าวสารซึ่งเป็นสิ่งจำเป็นสูงสุด รองลงมาได้แก่ การสนับสนุนร่วมมือ การรับฟังความคิดเห็น การมีส่วนร่วมในการตัดสินใจ และการเสริมอำนาจให้แก่ประชาชนซึ่งเป็นแนวทางที่จะมีส่วนร่วมน้อยกว่าทุกด้าน

คำสำคัญ : การมีส่วนร่วม, การพัฒนา, การพัฒนาแบบมีส่วนร่วม

ABSTRACT

The objectives of the pattern of participation development of large swamps in Thai society was to 1) to study the changes and development of Bungboraped Nakhon Sawan Province, 2) The synthetic of participatory development of Bungboraped, and 3) The evaluation pattern of participation developed Bungboraped engaged by public opinion and stakeholders. The methodology was the mixed methods, qualitative research by in-depth interview and focus group discussions to develop pattern of participation development, and quantitative research from 400 samples. Findings were as follow:

1. Bungboraped has changed for 1) the construction of dam to raise the water level in the year 2469 B.C. 2) creating a water canal gates Bungboraped 3) surrounding communities are stocking up 4) the flow of information included cultural 5) the modified the occupation of farming and fishing for subsistence to commercial businesses and for export 6) the expansion of the community, making to accommodate and obstruct the flow of water in flood season 7) changed the lives of people in communities around Bungboraped in dimension of the advancement 8) then use of chemicals, pesticides multiple forms causing toxins and ecological destruction, and 9) the conversion of assets (Bungboraped) to be financed by both public and private sector.

2. Participation in the development Bungboraped 1) the perception of information must be transparent, clear, unambiguous distortion-free 2) the hearing should take place in an atmosphere of harmony, in unison with trust and kindness to each other 3) the decision should be reasonable, legitimating but enough about and to the common good 4) Support cooperation should be based on the rules and regulations pure clean hidden benefits and 5) the supplemental power to veto should be reviewed when the development will affect the community and local authorities.
