### Abstract

This academic paper was aimed to show how Thai language changes life. In other hand, the ministers need foreign labors to participated and visited in Thailand for long-life learning and working in a lifetime adventure in the “Land of Smiles”, its center of Southeast ASEAN countries and other’s nations as well, which attract people over the world to be here. In controversy, Thai language is the official language in Thailand is an incredible opportunity, then it is the beautiful destination country that offers environmental nature, ocean, delicious food for traveling, the accommodations are diverse, many foreign students need the finance at least a part of their cost of living and study, working. Particularly in Thai society, where superiority is given much importance especially politeness or etiquette are the main manner of the good student’s characteristic to public’s view, everywhere. It will well helps a lot of people in getting a job in a lifetime’s experience. Furthermore, there are many famous international university and International Study Center are as the center for foreigners and foreign students.

In recent years, there has been a rapid evolution in the demographics of English communities. Meanwhile, foreign students are also needs English and interested in learning a new language institute picked up their dream in learning and working to receive better opportunities than those who don’t have language proficiency. Additionally, some part of developing countries and territories wholly or partly in Thailand such as Vietnam, Malaysia and China, India, Korea, amongst other countries were interested in speaking a second language can improve their business, money, culture or even cognitive skills and improved social life. Hence, they could have better job opportunities in the future and to further understand the nature of the learning in Thai culture as well as endlessly searching and institutional support foreign student’s challenging in their life.

**Keywords:** Thai Language, Language changes live, Foreign Students’ Life

## Introduction

This article based on “Thai language change foreign students’ life concerning learning the Thai language and working in Thailand”, as amount of Thai language history, according to (Wikipedia, Languages of Thailand) explored that Ethnologue million people speak Thai worldwide use approximately 60 million speakers that use Central Thai language in Thailand with more than 1 million speakers, It is used by about 85% of the population in Thailand, as well as by small groups of people such as in the United States, the United Arab Emirates, and Singapore. Thai stipulates different ways to address people to show varying degrees of respect or to acknowledge a person’s social rank. Even though Thai language is not the official language of Association of Southeast ASEAN Nations. At the same time, the numerous Thai language learners in Asian Community are increasingly obvious, Thai language has own uniqueness both a certain level of tone or tonal as in Chinese and it was established by the King Ramkhamhaeng the Great: Father of the Written Thai Language that shown how beautiful written language in the world. Likewise, Thailand is currently as the located centre of education, business, trade, tourist, transportation, etc., as well as proper the middle of Asian Community for connecting industries and exchanging languages or cultures. Therefore, many foreign students and entrepreneurs are inevitably wanting to know Thai language to changes their life.

## How Thai language changes foreign student's life

Thai language is also very beautiful symbols that attracted people over the world to join and beautiful smile it shown that the language is like the bridge which has carry. Thai languages given the opportunity either approaching touching how beautiful cultures in different kinds of regions or it is best destination for pupils encourages their skills while living in this country, Thai educational systems propelled both Thai people and foreigners comprehend in successful life.

## Thai language comprehend

Most foreign students are interested in Thai beauty in the various aspects of language, as Thai international schools or college require the techniques and strategies because many academies or institutions try to produce the quality and quantity civilians who are experienced and talented in Thai language using skills in Thailand ‘region. Such as the groups of Cambodian students, Laos, Vietnamese, Japan, Myanmar, Indonesia, Malaysia, or even Singapore, especially people from Europe needs to improve a second language as Thai language is the destination for them.

Afterwards, students who intentionally use Thai language in daily life with Thai persons in different accents, that they can absorb the influences from learning Thai school or textbooks especially listening Thai music and movies, Thai program courses attempt to help foreigners gain knowledge and love how Thailand are in sightseeing both private and public sections. Furthermore, the boulders country such as Laos, Colombia, Myanmar and some part of Vietnam they are normally practices both working and study in this century.

As well as various regions, foreign student's skills are able to solve the problems in organization of many crisis and issues, students who stay in north or south of Thailand will have more opportunities in using Thai language because they sometimes took some foreigners to visit and travel in the beaches and the grand palace as an international students and greatly values their participation and contributions in Southeast Asian countries, Singapore, Malaysia, Vietnam, Myanmar, and Thailand are in competition. Therefore, Thailand is as service hub for every nation. The cabinet and assemble are especially keen for foreign institutions to offer vocational courses and exchanges students have very modern health care system that includes government or non-governmental organizations centers.

Particularly, since the 2015s, people who are staying in Bangkok or the big cities have learned about AEC in classrooms, It must also be pointed out that Thailand centre has influenced directly to them in high quality, as Thammika ,S and Loke Hoe Yeong (2016, p.2). found that the most foreigners in Bangkok are learning and interested to learn more regional and global organizations have been studying Southeast Asian higher education as a regional concept. These organizations include UNESCO Bangkok, SEAMEO RIHED, ADB, and the World Bank.

Teaching Thai language, It is growing up more in the international school or college and tutors for international division including foreign pupils, towards attitudes in learning and working. Chinese or Japan learners seek the occasion from learning a class in university. For example, there are many experimental researches that can affiliated speaker's opinion in language. As Alex Breeden mentioned about 7 Great Theories about Language Learning by Brilliant Thinkers;

1. Plato's Problem
2. Cartesian Linguistics, by Descartes
3. Locke's Tabula Rasa
4. Skinner's Theory of Behaviorism
5. Chomsky's Universal Grammar
6. Schumann's Acculturation Model
7. Krashen's Monitor Model

All of the above points that will lead the goals to sustainable economic prosperity and students' opportunities. Particularly learning process by improving quality of education, increasing the quantity of economic development, and higher standards of living which can leading to effective learning outcomes in order to helps them together.

Chart of Thai Language Changes Foreign Students' Life

Accordingly, language is always change and give a chance in every changing as well, develop instructional approaches to student's knowledge of learning then to raise skillful awareness or critical thinking, empower foreign through planning that effects their views or aims. Therefore, using the six strategies instruction to produce the guidelines' practice & independent learning or working as in follows;

1. Design
2. Analyze
3. Instrument
4. Evaluate
5. Solve

All of the following strategies are inspired to make a positive impact on learners become better, at the same time, motivate them to use the Thai language in different ways, In order to enhance foreign students's compacity of information technology.

Refer to the research study of Yewan z, and Sumittra (2014, p74) .also mentioned that Chinese volunteer teacher needs to use Thai language to describe the detail in Chinese's manual and write description on the write boards. On the other hand, Thailand's beautiful located both history and present day, in the 21<sup>st</sup> century the world is becoming contemporary influences through the globalization and contribution. This shows clearly that regardless that of what foreign students know perceptible and respect in Thai culture which can practiced and connected properly.

### Thai Language and Culture Program for Non-Thai students

The goal of the Thai Language and Culture Program for non-Thai speaking students is to enable them to communicate in Thai appropriately to cultivate an understanding of, and to have good attitude toward in Thai culture. According to Division of Special Policy School (p.80) revealed that students are expected to conduct themselves appropriately in Thai society, and show appreciation of and respect for cultural diversity.

#### Steps of the Thai Language model

Thai educational quality is profound to be ready begin with the good weather, beautiful beach, prosperity of human management, an abundance of natural resources, hub care of Asian community especially Thailand's the "Land of smile" or land of "Yellow Rope" over 1,000 years until to today's world may lead professions from Asian's member countries to find good jobs either advantage or challenge in Thailand, as fast as learner plans their life: as similarly to Chayantrakom, T. (2006) found that Thailand has so many strengths in tourism and famous historical places; for instance, beautiful natural landscapes, historical places, and hospitality, which attract tourist around the world to increasingly travel to Thailand. It brings high income to the nation." Hence, the university's student enjoys a wide range of excellent academic support facilities, conveniences, its educational opportunities by participation. After that, they will always have the target and experiences for finding the good quality as much as possible.

## Conclusion

Foreign students, entrepreneur and tourists are the main group samplings come to Thailand for studying and working partners with Thai people as well as the government policies needs and promotes interchange with people of other countries who needs to have the scholarship, convenient, welfare, to developing the economics and friendly in any fields. Thus. It is always boost businesses or even educational societies and cultures in a positive way to others globally.
